

RUBIX

EXPORT CONDITIONS

January 2019

Export Conditions

There may be restrictions on the delivery of goods and services as well as actions in advance, in particular in accordance with applicable export control regulations. The customer is obliged to inform Rubix GmbH in good time of all information required by Rubix GmbH in order to check the final destination, including final use.

There may be restrictions on the delivery of goods and services as well as actions in advance, in particular in accordance with applicable export control regulations. The customer is obliged to inform Rubix GmbH in good time of all information required by Rubix GmbH in order to check the final destination, including final use.

If the customer intends to re-sell or re-ship goods acquired from Rubix GmbH, he or she is obliged to check in good time and on his/her own responsibility whether any restrictions apply to this, including restrictions under applicable export control law, among others. Restrictions may need to be considered not only with respect to embargo countries but - depending on their classification and final destination - also their domestic re-sale.
